Consumption Cured!

BECHAN'S HENGARIAN BALSAM OF LIFE. The Great English Remedy for Colds, Caughs. Asthma and Consumption.

THE most celebrated and infallible remedy for for coughs, colds, aathma, or any form of pulmonary consumption, is the Hungarian Balsam of monary consumption is the Hungarian Faishin of Life, discovered by Dr. Buchan of London, Eng., tested for upwards of seven years in Great Britain, and on the continent of Europe and introduced in-to the United States under the immediate super-

intendence of the inventor.

The astorishing success of the Hungarian Balsum in the cure of every form of consumption, warrants the American Agent in soliciting for treatment the worst possible cares that can be found in the comworst possible cares that can be found in the com-munity—cases that seek relief in vain from any of the common remedies of the key, and have been given up by the most distinguished Physicians as confirmed and incorable. The Hungarian Balsam has cured and will cure, the most desperate of cares. It is no quask newtrum but a standard English med-

eine, of known and established efficacy.
Every family in the United States should be supplied with Buchan's Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a precentive medicine in all cases of milds, coughs, spitting of black, pain in the side and chost irritation and involves of the lungs broachits, difficulty of breathing heetic fover

ALL-HEALING CINTREBUT.

FITTE preceeding figure is given to repre sent the Insensible Perspiration. It is he great e-ecuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface. which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and reposes by this means, of nearly all the imputities within us. The language of Scripture is, "the blood is the life." If it ever benomes impure, it may be traced directly to the stoppage of the insensible perspiration. Thus we see, all that is necessary when the lood is stagnant, or infected, is to open the pores, and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface -

direct their efforts to restore the insensible peripiration. The Thomsonian, for instance teams, the Hydropathist shrouds us in wet all of strength, keeping pace with the retreat plankets, the Homopathist deals out infinits of the disease from the system. It is put up simals, the Allopathist bleeds and dosses us in a highly concentrated form for convenwith mercury, and the blustering Quark hores us with pills, pills, pills. To give some idea of the amount of the insensible persolization, we will state that the

Thus we see the folly of taking so much in-

ternal remedies. All gractitioners, however

earned Dr. Lewenbock, ascertamed that five-eights of a liwe receive in the stomach. passes off by this means. In other words, evacuate five pounds of it by the insensible perspiration.

This is none other than the used up particles of the blood, and other juices giving place to the new and fresh ones. To check this, therefore, is to retain in the system five eights of all the virulent matter that nature mands should leave the body.

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and discase begids at once to develope Hence, a stoppage of this flow of the juices, originates so many complaints. Nine tentles of the whole die from diseases induced by a stoppage of the insensible perspiration.

Let me ask, now, every candid mind, what to unstop the pores, after they are closed .-Would you give physic to unstep the pores ! Or would you apply something that would do this upon the sueface, where the clogging actually is ! And yet I know of no physician who makes any external application to effect it. Under these circumstances, I present to physicians, and to all others, McAlister's All-Healing Outment of the World's Salve. It has power to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body. whether diseased slightly or severely. It has power to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter and then heals them. It is a remedy that sweeps off the whole catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions. It is a remedy that forhids the necessity of so many and deleterius drogs taken into the stomach I have eases of the chest, consumption, liver, involving the utmost dangar and responsibility and I declare before Heaven and man, that not in one single case has it failed to benefit when the patient was within the reach of William Gallusha.

mortal means. I have had phosicians, learned in the profeaviors, I have had ministers of the Granel, Judges on the bench, Aldermen and Law yers, gentlemen of the highest erudition and ultitudes of the poor, use it in every variety of way, and there has been but one voice McAister, your Ointment is good."

The salve has cured persons f the Headache of ten years standing, and who had it regularly every week, so that vometing often took place.
Dearness and Ear Ache are nesped with

the success. Cold Feet. It is a sure sign of disease in ure every case.

SANDS' SARSAPARILLA.

For the Removal and Permanent Core of all Diseases arising from an impure state of the Blood or

s. Sore Figer, Rung Warm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitie Symptoms, Sciatica or Limbego, and Diseases arising from an injudicious use of Mereury, Ascites or Dropsy, Exposure or Imprudence in Life. Also, Chronic Con-

stitutional Disorders,
"HE value of this preparation is now widely known as the widely known, and every day the field of its usefulness is extending. It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. In scrofulous and all external disorders, the result is a rapid healing of the sores and puxtules, in rheumatism, and other painful affections of the muscular fibre, a speedy removal of the pain, and in all cases a renewience and portability and when diluted according to the directions, each bottle will make six times the quantity, equal to one quart, and is then superior in medical value to the various preparations bearing the name.

EAST POULTNEY, Vt. Aug 10, 1846. Messes Sands-In the Spring of 1841 1 we cat and drink eight pounds per day, we had the typhus fever, with which I suffered the most intense pain, and when I recovered from that I was attacked with the spinal complaint and inflamed sore throat. continued until June, 1843, when my throat and longs ulcerated, attended with a severe cough, and my face was covered with scrofutous sores. I cannot describe what I suffered for five years, three of which I was confined to my bed and could not set up at During this period I received no beliefit from the various prescriptions of different Physicians, and had nearly given up all hopes of ever being any better. At this time I was induced to try your Sarsaparilla, from the many remarkable cures it had performed; and strange as it may appear, the first bottle course seems the most reasonable to pursue, effected a sensible change. By continuing its use my health has so much improved that I can now not only sit up, but walk, and I fully believe, with the blessing of Providence, that it will affect a perfect cure.

Yours, very truly, ADELINE STABLEY. The following testimonial from the Agent to the value of the Sarsaparilla in a case of Leprosy, will be read with interest by all

similarly afflicted BEAVER, Pike Co. Ohio, Sept. 7, 1846. A. B. & D. Sands: Gents .- A man near here used six bottles of your valuable. Sarsaparilla for the Larsony, and has received combined for six years past.
